About us

Our story

Clover Healthcare Services, founded by David Opoku in 2012, has been at the forefront of providing superior care and recruitment solutions in a variety of health and social care sectors. Clover Healthcare Services has developed to become a trusted brand in the industry, with a vision to make a positive difference in the lives of people who require care and to satisfy the staffing needs of healthcare facilities.

Our Management

Our management team, led by David Opoku, guides Clover Healthcare Services with a clear vision and uncompromising passion for quality. With a wealth of experience in the healthcare and recruiting industries, our management ensures that Clover Healthcare Services remains a dependable and creative provider of home care, assisted living, and healthcare staffing solutions.

Our Mission

Clover Healthcare Services' mission is simple but profound: to improve the quality of life for individuals in need of care and assistance, as well as to offer healthcare facilities with a dependable staffing partner.

We aspire to develop a community where dignity, compassion, and excellence flourish by creating a pleasant and empowering atmosphere for both our clients and our staff.

Our Services

.....

Live-in care

Our homes have a unique place in our hearts because they are filled with precious memories of family, laughter, and love. The prospect of leaving may be frightening, particularly when confronted with less independence and the assumption that a nursing home or residential home is the only safe alternative.

Clover Healthcare Services understands the value of maintaining your independence and living in your home. Our 24-hour live-in care service enables a carer to move into your home and provide individualised care based on your specific needs.

Our 24-hour live-in care service guarantees that you get the individualised care you need, providing you and your loved ones with peace of mind. While getting excellent care from highly qualified healthcare experts, you may relax in the comfort and familiarity of your own home.

Hospital to home care

Returning home from the hospital may be a difficult and emotional experience. We provide specialised hospital-to-home services at Clover Healthcare Services to provide a seamless transition and personalised care in the comfort of your own home. Our committed team of experienced carers is here to support your recovery and assist you in regaining your independence.

Hospital-to-home programmes are designed to support individuals' transition from a hospital environment back to their homes.

We recognise that each person's recovery path is unique. Our caring carers offer personalised care that is tailored to your unique requirements, allowing you to regain strength and independence at your own speed.

Our trained carers have extensive experience offering hospital-to-services with compassion and professionalism.

Specialist care

Finding the correct care might be critical when dealing with complex medical issues or specialised healthcare needs. Clover Healthcare Services provides specialist care services aimed at providing expert support and personalised care for individuals with specific healthcare requirements. Our team of highly qualified and experienced specialists is committed to providing the highest quality care while prioritising your health and well-being.

We recognise that each individual needs tailored care based on their unique healthcare requirements. To build a personalised care plan, our specialists take the time to understand your health, preferences, and aspirations.

Our committed staff offers individualised support to improve your overall well-being and quality of life, from medication management to specialised therapies and treatments.

Domiciliary Care

Unforeseen situations may make even the most basic functions of daily living difficult. Clover Healthcare Services is here to help and support you in maintaining your lifestyle in the comfort and familiarity of your own home.

Our competent and dependable carers are committed to protecting your health and safety by delivering complete personal care services.

Clover Healthcare Services understands that each person's care needs are unique. As a result, we provide variable domiciliary care hours, ranging from a few hours per day to 24-hour care.

Our trained carers are ready to offer dependable care that fits your schedule, whether you need support during certain periods of the day or around-the-clock assistance.

Respite care

Caring for a loved one may be both physically and emotionally taxing. Clover Healthcare Services provides compassionate respite care services, giving carers much-needed relief while maintaining the safety and well-being of their loved ones.

Our committed staff of professional carers is ready to step in and offer exceptional care, enabling you to relax and recharge while knowing your loved ones are in competent hands.

We recognise that committing your loved one's care to others may be a tough choice. That is why our respite care services place a premium on trust and dependability.

Our professional carers are thoroughly screened and trained to guarantee they deliver the best level of care. You may rest easy knowing that your loved ones are in skilled and sympathetic care.

End Of Life

We recognise that the end-of-life journey is a very personal and emotionally stressful time for individuals and their families at Clover Healthcare Services. Our committed team of carers and experts delivers end-of-life care services with compassion, respect, and the highest level of care.

During this difficult time, our goal is to relieve physical and emotional discomfort, provide comfort, and respect individuals' dignity

End-of-life care is a specialised service that focuses on improving the quality of life for individuals facing terminal illnesses. Our devoted team of carers offers complete support, covering not just the physical requirements of the individual but also the emotional and spiritual components of their journey.
